

Manisha Padhi

DevOps Product Owner | CI/CD | Developer Experience | Platform Engineering

Lgh 1301, Skoldvagen 7, Stockholm, 15151, Sweden

Phone: +46 767852019 | Email: manishapadhi08@gmail.com | GitHub: <https://github.com/manishapadhi1>

Target Role

Company and role Scania - DevOps Product Owner
Location Sodertalje / Stockholm region, Sweden
Work authorization EU long-term residence permit; does not need sponsorship

Professional Summary

Summary Senior software developer with 8+ years of IT experience across backend systems, CI/CD, containers, monitoring, production support and agile team collaboration.

Summary Well matched to DevOps Product Owner work through practical developer experience, backlog and priority collaboration, automation mindset, stakeholder communication and focus on engineering productivity.

Summary Can translate developer needs into clear platform value around CI/CD, infrastructure, automation, security, quality, observability and developer experience.

Target Role Fit

- Understands developer pain points first-hand and can prioritize DevOps capabilities that improve speed, quality and operational excellence.
- Experience with GitHub Actions, Docker, Kubernetes, Maven, Linux, CI/CD, Grafana, Prometheus, logging and production troubleshooting.
- Comfortable collaborating with developers, architects, DevOps, QA, product owners and business stakeholders to align technical needs with business value.
- Can monitor delivery capability through KPIs such as build quality, deployment reliability, incident trends, automation coverage and developer feedback.
- Ready to work with GitLab CI, Jenkins, AWS, Terraform, Ansible, Artifactory, Jira and Confluence using strong adjacent DevOps foundations.

Technical Skills

Product ownership Backlog prioritization, roadmap input, stakeholder collaboration, business value translation, delivery follow-up

DevOps CI/CD, GitHub Actions, Docker, Kubernetes, Linux, Maven, Gradle awareness, OpenShift awareness, automation

Platform engineering Developer experience, engineering productivity, quality, security, reusable workflows, modern engineering practices

Observability Grafana, Prometheus, NewRelic, logging, metrics, KPIs, troubleshooting, production support

Tooling alignment Jira-style coordination, Confluence-style documentation, GitLab CI/Jenkins/AWS/Terraform/Ansible awareness

Work Experience

Senior Java Developer

Apr 2022 to Present

MSC Technology

Torino, Italy

- Use CI/CD practices, GitHub Actions awareness, Docker, Kubernetes, Maven and Git to support stable backend software delivery.
- Collaborate with product owners, QA, DevOps, architects and engineers to prioritize technical improvements and release readiness.
- Improve developer and operator experience by documenting workflows, reducing recurring incidents and strengthening automated tests.
- Monitor services with Grafana, Prometheus and NewRelic, using logs and metrics to drive continuous reliability improvements.
- Build and maintain Java backend services and REST APIs, giving practical insight into developer platform needs and delivery friction.
- Support production incidents, root-cause analysis and operational follow-up with responsibility for quality and stakeholder communication.

Associate Engineer - Backend

Aug 2021 to Feb 2022

Clariter

Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring awareness and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

JNTU Kakinada

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Sep 2013 – May 2017

Andhra Pradesh, India

Achievements and Certifications

Promotions Promoted from Associate Trainee to Associate Consultant within 1 year

Certifications CMMI Certified within 2 years. Ranked top 3 in Java Certification course

Languages Fluent in English; Swedish-friendly business communication context

Work authorization EU long-term residence permit; does not need sponsorship
