

Manisha Padhi

Scrum Master | Agile Delivery | Java Backend | Diagnostics Platform

Lgh 1301, Skoldvagen 7, Stockholm, 15151, Sweden

Phone: +46 767852019 | Email: manishapadhi08@gmail.com | GitHub: <https://github.com/manishapadhi1>

Target Role

Company and role Scania - Scrum Master - Security Platform, Software Update and Diagnostics
Location Sodertalje / Stockholm region, Sweden
Work authorization EU long-term residence permit; does not need sponsorship

Professional Summary

Summary Software Developer with 8+ years of IT experience and strong hands-on background in Java backend systems, agile delivery, production support and cross-functional collaboration.
Well matched to Scania/TRATON Scrum Master work through experience with sprint-based delivery, product owners, QA, DevOps, engineers, code reviews, knowledge sharing, impediment handling, CI/CD and production-quality software.
Summary Brings practical technical credibility for teams working with backend services, microservices, diagnostics-adjacent platforms, connectivity, security mindset and continuous improvement.

Target Role Fit

- Can facilitate sprint planning, reviews, retrospectives and daily stand-ups from a developer perspective while keeping delivery focused on value, flow and quality.
- Experienced collaborating with product owners, QA, DevOps and engineers to align priorities, dependencies and release readiness in agile teams.
- Hands-on Java, Spring Boot, REST API, microservice, Kubernetes, CI/CD, Grafana and production support background gives credibility with technical teams.
- Comfortable coaching colleagues, reviewing code, documenting workflows and strengthening common ways of working across distributed teams.
- Motivated by TRATON values: customer first, respect, team spirit, responsibility and elimination of waste through continuous improvement.

Technical Skills

Agile leadership Scrum ceremonies, sprint planning, reviews, retrospectives, daily stand-ups, backlog coordination, impediment removal, continuous improvement
Delivery Cross-functional teams, product owner collaboration, QA, DevOps, release readiness, documentation, stakeholder communication
Technical context Java 17, Spring Boot, REST APIs, microservices, PostgreSQL, Redis, Docker, Kubernetes, GitHub Actions, CI/CD
Observability Grafana, Prometheus, NewRelic, logging, metrics, incident analysis, production troubleshooting
Security platform fit Secure interfaces, API checks, integration testing, reliability, quality mindset, diagnostics and connectivity domain interest

Work Experience

Senior Java Developer

Apr 2022 to Present

MSC Technology

Torino, Italy

- Develop and maintain Java 17 backend services for business-critical production systems using Spring Boot, REST APIs, microservices and databases.
- Work in cross-functional agile teams with product owners, QA, DevOps and engineers to deliver end-to-end changes with clear priorities and ownership.
- Support team flow by clarifying requirements, reviewing code, documenting workflows and helping colleagues resolve technical blockers.
- Improve delivery quality through JUnit, Mockito, integration tests, API checks, CI/CD practices and production monitoring.
- Use Kubernetes, Docker, Git, GitHub Actions, Maven, Grafana, Prometheus and NewRelic to support stable delivery and operational transparency.
- Coach colleagues, share knowledge and contribute to a developer chapter culture focused on learning, collaboration and continuous improvement.

Associate Engineer - Backend

Aug 2021 to Feb 2022

Clariter

Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring awareness and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

Sep 2013 – May 2017

JNTU Kakinada

Andhra Pradesh, India

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Achievements and Certifications

Promotions	Promoted from Associate Trainee to Associate Consultant within 1 year
Certifications	CMMI Certified within 2 years. Ranked top 3 in Java Certification course
Languages	Fluent in English; Swedish-friendly business communication context
Work authorization	EU long-term residence permit; does not need sponsorship
