Professional Summary

Software and business-oriented IT professional with 8+ years of experience across backend systems, stakeholder dialogue, agile delivery, documentation, training support and production operations.

Experienced in structured coordination, backlog follow-up, documentation quality, stakeholder communication, agile collaboration, and continuous improvement.

Combines technical understanding with clear communication to bridge business users, trainers, system owners and development teams in international environments.

Selected Achievements and Highlights

- Coordinates backlog items, training activities, quality checks and stakeholder follow-up to create structure and clarity across business and IT teams.
- Experienced documenting workflows, supporting users, clarifying needs and communicating technical topics to non-technical stakeholders.
- Comfortable in agile teams with product owners, QA, DevOps, engineers and business stakeholders, including facilitation and follow-up.
- 8+ years of enterprise IT experience, including 3+ years focused on Java/Spring Boot backend development for production systems.
- Recognized career progression: promoted from Associate Trainee to Associate Consultant within 1 year.
- CMMI certified within 2 years and ranked top 3 in a Java certification course, supporting a quality-focused engineering profile.

Technical Skills

Business analysis	stakeholder dialogue, requirements clarification, backlog coordination, process structure, activity follow-up, continuous improvement
Training and BCM	training material quality checks, LMS coordination, user support, documentation ownership, knowledge sharing, learning setup improvement
Agile coordination	Scrum/Kanban, agile ways of working, meeting facilitation, product owner collaboration, Jira-style coordination
Technical base	Java, REST APIs, SQL, PostgreSQL, integrations, production systems, CI/CD, Grafana, troubleshooting
Communication	International teams, business and IT bridge, clear English, Swedish-friendly workplace communication

Work Experience

Senior Java Developer	Apr 2022 to Present
MSC Technology	Torino, Italy

- Work with product owners, QA, DevOps, engineers and stakeholders to clarify needs, coordinate delivery and follow up end-to-end changes.
- Document workflows, operational procedures and technical decisions to support knowledge sharing, onboarding and consistent delivery quality.
- Translate business needs into backend service behaviour, validation rules, API changes and testable acceptance criteria.
- Support production systems by analyzing incidents, communicating status, coordinating fixes and confirming release outcomes.
- Use agile delivery practices, CI/CD practices, automated testing and monitoring to improve transparency and team reliability.
- Collaborate with technical and non-technical colleagues in international environments using clear English and Swedish-friendly business communication.

Associate Engineer - Backend

Aug 2021 to Feb 2022

Clariter

Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

Sep 2013 – May 2017

JNTU Kakinada

Andhra Pradesh, India

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Achievements and Certifications

Promotions

Promoted from Associate Trainee to Associate Consultant within 1 year

Certifications

CMMI Certified within 2 years. Ranked top 3 in Java Certification course

Languages

Fluent in English; Swedish-friendly business communication context
