

Manisha Padhi

Backend Developer | Cloud Connectivity | APIs | DevSecOps

Stockholm, Sweden | Female | EU long-term residence permit | No sponsorship required

Phone: +46 767852019 | Email: manishapadhi08@gmail.com | GitHub: <https://github.com/manishapadhi1>

Professional Summary

Senior backend developer with 8+ years of experience and 3+ years focused on Java, Spring Boot, REST APIs, microservices, databases, production systems and agile delivery.

Strong background in backend service development, cloud and container exposure, secure integrations, CI/CD, monitoring, production support, and connected-system reliability.

Contributes to robust communication platforms through APIs, internal tools, event-ready services, test automation, and operational improvements with a DevSecOps mindset.

Selected Achievements and Highlights

- Builds, tests, deploys and maintains backend services and internal tools with end-to-end ownership, monitoring and production accountability.
- Experience with REST APIs, microservices, Docker, Kubernetes, CI/CD, Grafana, databases and clean maintainable backend code.
- Delivered Smart Trader cloud data platform project work using AWS CDK concepts, Docker and CI/CD practices, strengthening cloud-native delivery readiness.
- 8+ years of enterprise IT experience, including 3+ years focused on Java/Spring Boot backend development for production systems.
- Recognized career progression: promoted from Associate Trainee to Associate Consultant within 1 year.
- CMMI certified within 2 years and ranked top 3 in a Java certification course, supporting a quality-focused engineering profile.

Technical Skills

Backend	Java 17/21, Spring Boot, Spring WebFlux, REST APIs, microservices, internal tools, maintainable code, clean architecture principles
Cloud and DevSecOps	AWS, Docker, Kubernetes, GitHub Actions, CI/CD, AWS CDK project exposure, Maven, Linux, infrastructure-as-code concepts
Connectivity	vehicle connectivity context, secure communication, REST APIs, message routing, Kafka/Kinesis/SQS concepts, telecom/network protocol concepts
Security	JWT, OAuth2, role-based access control, secure APIs, certificates, PKI/HSM concepts, DevSecOps mindset
Operations	Grafana, Prometheus, NewRelic, logging, metrics, alerting, test automation, troubleshooting, SQL, PostgreSQL, Redis

Work Experience

Senior Java Developer

Apr 2022 to Present

MSC Technology

Torino, Italy

- Develop and maintain Java 17 backend services and REST APIs for business-critical production systems with end-to-end ownership.
- Build secure, reliable integrations using Spring Boot, Spring WebFlux, PostgreSQL, Redis, JSON, XML and validation logic.
- Use Docker, Kubernetes, Git, GitHub Actions, Maven and CI/CD practices to support stable delivery and operational efficiency.
- Monitor and troubleshoot production systems using Grafana, Prometheus, NewRelic, logs and metrics to improve reliability.
- Improve quality through JUnit, Mockito, integration tests, API checks and maintainable service design.
- Collaborate in agile teams with product owners, QA, DevOps and engineers to turn complex requirements into working backend solutions.

Associate Engineer - Backend

Aug 2021 to Feb 2022

Clariter

Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

Sep 2013 – May 2017

JNTU Kakinada

Andhra Pradesh, India

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Achievements and Certifications

Promotions

Promoted from Associate Trainee to Associate Consultant within 1 year

Certifications

CMMI Certified within 2 years. Ranked top 3 in Java Certification course

Languages

Fluent in English; Swedish-friendly business communication context
