

Manisha Padhi

Software Developer | DevOps | CI/CD | Developer Experience

Stockholm, Sweden | Female | EU long-term residence permit | No sponsorship required

Phone: +46 767852019 | Email: manishapadhi08@gmail.com | GitHub: <https://github.com/manishapadhi1>

Professional Summary

Senior software developer with 8+ years of IT experience across backend systems, CI/CD, containers, monitoring, production support and agile team collaboration.

Combines practical developer experience with backlog and priority collaboration, automation mindset, stakeholder communication, and focus on engineering productivity.

Can translate developer needs into clear platform value around CI/CD, infrastructure, automation, security, quality, observability and developer experience.

Selected Achievements and Highlights

- Prioritizes DevOps capabilities that improve developer experience, CI/CD flow, quality gates, security, operational readiness and platform cost optimisation.
- Works with AWS, Kubernetes, Docker, GitLab/GitHub CI/CD pipelines, pipeline parallelisation, SonarQube-style quality gates and clean code practices.
- Collaborates with developers, architects, DevOps, QA, product owners and business stakeholders to translate technical platform needs into business value.
- 8+ years of enterprise IT experience, including 3+ years focused on Java/Spring Boot backend development for production systems.
- Recognized career progression: promoted from Associate Trainee to Associate Consultant within 1 year.
- CMMI certified within 2 years and ranked top 3 in a Java certification course, supporting a quality-focused engineering profile.

Technical Skills

Product ownership	DevOps backlog prioritization, roadmap input, stakeholder collaboration, business value translation, delivery capability follow-up
DevOps	AWS, Kubernetes, Docker, GitLab CI/CD, GitHub Actions, pipeline parallelisation, Maven, Linux, OpenShift, automation
Platform engineering	developer experience, engineering productivity, reusable workflows, clean code practices, SonarQube/code quality gates, secure delivery
Operations	Grafana, Prometheus, NewRelic, logging, metrics, KPIs, troubleshooting, operationalisation, production support
Cost and tooling	platform cost optimisation, Jira, Confluence, GitLab CI, Jenkins, AWS, Terraform, Ansible, Artifactory

Work Experience

Senior Java Developer

Apr 2022 to Present

MSC Technology

Torino, Italy

- Dockerize and maintain Java backend services and REST APIs, using Git, Maven, CI/CD practices and Kubernetes-based delivery patterns for stable releases.
- Improve delivery confidence through automated tests, integration checks, clean code practices and code review, with SonarQube-style quality gate alignment.
- Collaborate with product owners, QA, DevOps, architects and engineers to prioritize technical improvements, release readiness and operationalisation.
- Use Grafana, Prometheus, NewRelic, logs and metrics to monitor services, troubleshoot incidents and turn operational signals into reliability improvements.
- Contribute to developer experience through documentation, repeatable workflows, automation opportunities and reduced delivery friction across teams.
- Bring practical backend experience to DevOps product decisions around CI/CD pipeline design, pipeline parallelisation, platform cost optimisation, quality gates and secure delivery.

Associate Engineer - Backend

Aug 2021 to Feb 2022

Clariter

Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

Sep 2013 – May 2017

JNTU Kakinada

Andhra Pradesh, India

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Achievements and Certifications

Promotions

Promoted from Associate Trainee to Associate Consultant within 1 year

Certifications

CMMI Certified within 2 years. Ranked top 3 in Java Certification course

Languages

Fluent in English; Swedish-friendly business communication context
