

Manisha Padhi

Software Developer | Business IT Analysis | Agile Coordination | Training Support
Stockholm, Sweden

Phone: +46 767852019 | Email: manishapadhi08@gmail.com | GitHub: <https://github.com/manishapadhi1>

Professional Summary

Software and business-oriented IT professional with 8+ years of experience across backend systems, stakeholder dialogue, agile delivery, documentation, training support and production operations.

Experienced in structured coordination, backlog follow-up, documentation quality, stakeholder communication, agile collaboration, and continuous improvement.

Combines technical understanding with clear communication to bridge business users, trainers, system owners and development teams in international environments.

Selected Highlights

- Coordinates backlog items, follows up activities, creates structure, and maintains clarity across multiple stakeholders.
- Experienced documenting workflows, supporting users, clarifying needs and communicating technical topics to non-technical stakeholders.
- Comfortable in agile teams with product owners, QA, DevOps, engineers and business stakeholders, including facilitation and follow-up.
- Technical background in software engineering, databases, integrations and production support helps understand CAD/PDM-adjacent IT environments quickly.

Technical Skills

Business analysis	Stakeholder dialogue, requirements clarification, backlog coordination, process structure, follow-up, continuous improvement
Training and BCM	Training material quality checks, documentation, user support, knowledge sharing, learning setup improvement
Agile	Scrum/Kanban awareness, agile ways of working, facilitation, product owner collaboration, Jira-style coordination
Technical base	Java, REST APIs, SQL, PostgreSQL, integrations, production systems, CI/CD, Grafana, troubleshooting
Communication	International teams, business and IT bridge, clear English, Swedish-friendly workplace communication

Work Experience

Senior Java Developer Apr 2022 to Present
MSC Technology Torino, Italy

- Work with product owners, QA, DevOps, engineers and stakeholders to clarify needs, coordinate delivery and follow up end-to-end changes.
- Document workflows, operational procedures and technical decisions to support knowledge sharing, onboarding and consistent delivery quality.
- Translate business needs into backend service behaviour, validation rules, API changes and testable acceptance criteria.
- Support production systems by analyzing incidents, communicating status, coordinating fixes and confirming release outcomes.
- Use agile delivery practices, CI/CD awareness, automated testing and monitoring to improve transparency and team reliability.
- Collaborate with technical and non-technical colleagues in international environments using clear English and Swedish-friendly business communication.

Associate Engineer - Backend Aug 2021 to Feb 2022
Clariter Rome, Italy

- Built Java backend applications and ETL services for data-driven business processes.
- Developed REST APIs and secure authentication flows using JWT, OAuth2 and role-based access control.
- Worked with SQL, relational databases, integration logic, automated tests and stakeholder clarification.

Associate Consultant

Aug 2017 to Aug 2019

Apps Associates

Hyderabad, India

- Developed and supported enterprise applications and integrations using Java, SQL and PL/SQL.
- Maintained business-critical systems, handled production incidents, analyzed root causes and communicated fixes.
- Improved batch jobs, data checks, reports and integration flows used by operations teams; promoted within 1 year.

Project Highlights

Python, Docker, AWS CDK, CI/CD

2024 to 2026

Smart Trader, Cloud Data Platform

GitHub: manishapadhi1

- Built a backend and web application with service structure, tests and repeatable delivery.
- Used Docker, cloud infrastructure concepts and CI/CD practices to support maintainable operations.
- Practiced fintech-style data handling, automation, monitoring awareness and reliable release flow.

Elasticsearch, Fluentd, Kibana, Docker

2020

EFK Observability Stack

GitHub: manishapadhi1

- Worked with log aggregation using Elasticsearch, Fluentd and Kibana.
- Used Docker based environments to explore observability, monitoring and production visibility.

Java, Docker, Keycloak, SSO

2024

Nexus SSO Integration

GitHub: manishapadhi1

- Studied and adapted a Java based single sign-on integration for secure backend access.
- Worked with Docker, Keycloak, authentication, access control and service configuration.

Education

Masters in International Finance and Economics

Sep 2019 – Feb 2022

University of Macerata

Macerata, Italy

- International Finance, Economics, Business Management

Bachelor of Technology in Computer Science

Sep 2013 – May 2017

JNTU Kakinada

Andhra Pradesh, India

- Computer Science, Java, Data Structures, DBMS, Software Engineering

Achievements and Certifications

Promotions Promoted from Associate Trainee to Associate Consultant within 1 year

Certifications CMMI Certified within 2 years. Ranked top 3 in Java Certification course

Languages Fluent in English; Swedish-friendly business communication context

Work authorization EU long-term residence permit; does not need sponsorship
